OBJECT LESSON OR KIDS SERMON

ITEMS NEEDED:

A selfie stick

Do you know that before the iPhone first put a camera on a phone, people didn't take selfies? A few people would take their cameras and turn them on themselves from time to time, but most people handed their cameras to someone else to take their photo. In fact, the word "selfie" didn't even exist at that time. Now everyone knows what a selfie is, and everyone takes them. We've even invented special tools like this selfie stick to help us take the best selfies we can!

Selfies enable us to picture ourselves in the places we've been. That's what David was trying to do in Psalm 23 - to picture himself next to God every place he went.

God has promised to always be with us. There's no place we can run from him, and there's no where we can go that we are lost. God loves us, and if we listen to him, he will guide us even through the darkest places.

When life gets hard, or scary, remember Psalm 23. Remember that God is always there, and he will never leave us. We can count on God to be by our side in an instant any time we call his name.
